The screenshot shows the GitHub repository page for 'wulky/felix'. The 'Commits' tab is selected, displaying a list of commits. The first commit, 'Commit on Oct 16, 2018', is highlighted in blue and shows a change to 'fingerprint-watcher-40c1033a6b3c'. The commit message is 'WIP: fingerprint-watcher on Oct 16'. The commit hash is '40c1033a6b3c'. The commit is authored by 'wulky' and committed to 'main'. The commit is linked to a pull request 'wulky:main'.

Ryan Kenfield Commits:

[illegible][illegible]

Clint Eisenzimmer Commits:

[illegible][illegible][illegible]

Jiadong Tang Commits:

The screenshot shows a Mac desktop with two Safari browser windows open, displaying the GitHub commit history for the 'Uvecrep/WackyTanks' repository. The top window shows commits from Nov 18, 2019, and the bottom window shows commits from Dec 3, 2019. The commits are listed with their titles, authors, commit times, and commit hashes.

Commits on Nov 18, 2019

- update damage** (3884b0c) - Shengbo Tang authored and Shengbo Tang committed 24 days ago
